APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 63127 is issued subject to the terms and conditions imposed in said Permit 63127 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This temporary permit will allow the permittee to dewater the pit area. Any water obtained as a result of the dewatering operation will be used first by Barrick Goldstrike Mines Inc. for mining, milling, heap leaching, drilling, road watering and other related mining and milling uses (hereafter referred to as mining and milling uses within the described place of use) before usage from water supply wells, and by Newmont Gold Company for the same purposes stated above at what is known as the No. 4 Mill.

Any water not used for mining and milling purposes may be utilized by the TS Ranch on land for irrigation use presently described under the place of use under Permits 16951, Certificate 5605; 16952, Certificate 5606; 28966, Certificate 10226; 28967, Certificate 10227; 29952, Certificate 10043; 29953, Certificate 10044; 30240, Certificate 10046; 30241, Certificate 10047; 30242, Certificate 10048; 30253, Certificate 10229; 30849, Certificate 10057; 31288; 31289; 34766; 34767; 34768; 34769; 34770; 34771; 34772; 34773; 36020; 36021; 36022; 36023; 36024; 52941; 52942; 52943; 52944; 52945; 52946; 52947; 52948; 52949 and 52950 or any subsequent changes of the place of use of these rights.

The intent, in the interest of the best and most efficient management of the resource, is to substitute water from the dewatering of the pit area for water presently authorized to be withdrawn from the Boulder Flat Groundwater Basin under the above described permits.

Any water not used for mining and milling purposes may be utilized: to address water right impairment, if any, resulting from the diversion of water pursuant to the Barrick applications; to satisfy water use and water management requirements, if any, resulting from actions taken by other governmental agencies; to reinject or infiltrate water; to replace existing authorized groundwater withdrawals; and to serve other beneficial uses that would not adversely impact other water rights.

This water may be diverted to storage and/or discharge through the reservoir constructed under Dam Application J-320. Rights to place such water to use for consumptive purposes or non-consumptive purposes will be provided under Primary Permit 55272 and any secondary permits issued there under.

The total combined consumptive duty of water under Permits 55138, Certificate 15264; 55139; 55140; 55141; 55142; 55143; 55145; 55146; 55148; 55149; 55150; 57217, Certificate 14852; 57218, Certificate 14853; 57222, Certificate 14854; 57223, Certificate 14855; 57224, Certificate 14856; 57225, Certificate 14857; 57226, Certificate 14858; 57227, Certificate 14859; 57230, Certificate 14860; 57231, Certificate 14861; 57233, Certificate 14862; 58354; 58355; 58470, Certificate 14865; 58471, Certificate 14866; 58472, Certificate 14867; 58473, Certificate 14868; 58474, Certificate 14869; 58475, Certificate 14870; 58476, Certificate 14871; 58543, Certificate 14872; 58544, Certificate 14873; 58545, Certificate 14874; 58546, Certificate 14875; 58547, Certificate 14876; 59685, Certificate 14389; 59686, Certificate 14390; 59687, Certificate 14391; 59688, Certificate 14392; 59860, Certificate 15144; 59861, Certificate 15145; 60565, Certificate 14863; 60566, Certificate 14864; 60782, Certificate 15146; 60783, Certificate 15147; 60784, Certificate 15148; 60785, Certificate 15149; 60786, Certificate 15150; 60788, Certificate 15151; 61407; 62736; 62737; 63126; 63127; 63767; 64279; 69428-T and Temporary Permits 69458-T through 69473-T, inclusive, will not exceed 11,733 acre-feet annually(AFA) for mining and milling purposes.
